

Agenda for Faculty Meeting, 12 November 2024

Announcements:

1. Hayden-Howard Lecture in Rosenberg Grant Courtroom on 14 Nov 2024, starting at 4pm.
2. Chair's updates

Business:

1. Prerequisite changes.

As Alberto announced, the Office of the Provost has made a one-time offer to submit updates for the prerequisites and the course descriptions of our courses through a spreadsheet of changes and without having to use the formal Curriculog process. The College deadline for this offer is February 1, 2025. The goal of our discussion is to help preparing our response.

2. Re-inventing Math Excel, initial discussion.

Student interest and enrollments in our Math Excel program have waned. Thus, we were forced to cancel the Math Excel sections this year. We should discuss the questions if and how we want to revise Math Excel or if we want to develop a new high-impact program.
